

# MCLACHLAN HOMES REVIEW

McLachlan Homes right from day one listened to us and what was important in our next home. Terry was our first contact, and nothing was too hard for him. Extremely professional and very knowledgeable in his field. Terry was the only one that created a plan that worked correctly on our block. No other Company could provide us a plan that worked as well as McLachlan Homes.

After signing the contract with Terry, we were handed over to Sarah who is our Customer Service Officer. We had made several changes and felt like nothing was too difficult. Very understanding and not once did they say this couldn't be changed.

No unnecessary fees to vary the floor plan or add additional features.

During the build Nick was our Site Supervisor. Nick kept in touch with us and advised when things will be taking place and when we need to get any outside trades in during rough in stage etc. Just like Terry and Sarah, Nick was very professional and made the process so simply. Just an amazing Home Building Company!

We now have handover of our beautiful Home. And what a Home! Everything we wanted and then some. It was nice to see the three people who helped so much at the handover appointment to see what they have created for us.

Thank you to everyone there who has helped us behind the scenes.

Luke, Kate & Elly :)

Your Experience, in your words.
