

MCLACHLAN HOMES

Your experience, in your words.

QBCC 157 25895

Special thanks to Luke Gillett, the site supervisor, who has been terrific and done such a good job managing trades, materials and us.

Hi Stacey-Lee & Angela,

Well we had our first night in the new house. Bit of a dream really.

We love it. Still lots to do with landscaping etc. I feel exhausted already just with one day of moving big bulky stuff over but it's well worth it.

Big thanks to you and your team in the office. We had no difficulty with the paperwork and the system to transfer money at appropriate times worked really well.

Special thanks to Luke Gillett, the site supervisor, who has been terrific and done such a good job managing trades, materials and us. He was very approachable, shared certain details about the build when necessary and always happy to listen to our requirements. Once the build started it just flew by. Seeing something happening every week no matter how small kept us happy.

Big thanks to individual tradies we met who were also so friendly and happy to chat and listen to us. Special mention to the tilers, Steve and Toddy, Electricians Tony, Luke and their workers, the plumber who gave us good advice to get the rain showers installed and the painters.

Also to the framers, who we didn't meet (and anyone else involved), but obviously did a great job as the structure of the house seems really solid and sound.

They all did a great job.

All the best to all the staff at McLachlans and keep up the good work.

Very kind regards

Peter & Mary
